About Silver King.

After conducting John Hays Hammond, the noted expert, through the Silver King bonanza at Park City, Senzior Kearns returned to town last night. His distinguished guest was summoned to New York during his stay at the mine and left over the Union Pacific without coming back to Salt Lake. The gentleman, Senator Kearns aid last evening, expressed hanself as highly pleased with the condition of the famous property, that is now paying its shareholders more than \$1,000,000 a year in dividends, but "so far as there for no other purpose than to acquaint himself with the mire, in order that he might speak of it from the

Every share was voted solidly for the old officers and directors and the promised contest from the Stokes element falled to materialize. The directors reclected were Allan C. Washington, Juan M. Ceballos, Theodore W. Moore and William R. Britton of Nev York, and P. T. Farnsworth, John Sharp and James Sharp of this city. At the organization of the board A. C. Washington was again made president; Juan M. Ceballos, vice president; P. T. Farnsworth, general manager, and Ambrose I. Harrison of New York, secretary and treasurer, the latter not being member of the board.

Mr. Washington and the local directors went down and inspected the mine devices to the meeting, and all expressed themselves well satisfied with what was being done. No reports were submitted at the meeting, as they come at the end of the calendar year.

President Washington leaves for New York today. He stated yesterday that with better freight and treatment charges recently secured from the railroads and smelters he thought the company would be able to pay dividends with greater frequency hereafter.

FINANCIAL NEWS

Another Day of Large Trading on Wall Street.

FLUCTUATION OF

LIQUIDATION IN SUGAR FEA-TURE OF THE MARKET.

Liquidation in sugar was the feature of the market, following a sharp break in prices yesterday. The usual lack of information regarding the movement was one of its features. The room traders joined in the selling in an attempt to make a quick return, and the recovery caused a rally of a point. The stock's extreme decline was 4½. The gossip to account for the decline included rumors that the insiders were liquidating on apprehensions of a change in the sugar tariff at the coming session of congress or of unfriendly legislation. Other rumors had it that insiders who had sold at recent high prices were depressing the price to get back their stock.

The general feeling of distrust of the blind pool methods of the grisode in Amalgamated Copper, rass a lactor in Sugar and in a purpose of the industrials or points and the stocky of the price of the liquidational Salt preferred, General Electric and American Express.
